

CAPABILITY STATEMENT

Michlin Metals, founded in 1984, is one of only a few certified Woman Owned Small Businesses (WOSB) that is not only a full-service metals distributor but also maintains the AS9120 Aerospace Certification. We offer a single source solution providing quality material and assistance with complicated supply chain issues. We specialize in the "Hard to Find" material.

- Specializing in Stainless, Specialty Steel, Aircraft Alloys, Carbon Steel, Aluminum, Aermet 100, Monel, Hastelloy, Waspaloy & Titanium
- Examples of Additional Custom Services include heat treating, turning, polishing, centerless grinding, cut to length, drawn to size and drilling
- Full Material Traceability and DFARs material available

DIFFERENTIATORS

- Serving the Metals Industry for over 3 decades.
- Management Team has over 75 years collective experience.
- Consistent product quality and customer satisfaction.
- Has maintained long term relationships with top customers
- Extensive product knowledge enables us to work closely with our customers to supply their most challenging material requirements.
